TENNANT RECON

CERTIFIED PRE-OWNED
AND USED EQUIPMENT

Flexible financing offerings, tailored to
your business needs.

BEFORE

AFTER

PRE-OWNED TENNANT MACHINES ALL THE QUALITY AT A FRACTION OF THE COST

Tennant's reconditioning facility in Zaragoza (Spain) opened in 2016. With a capacity to refurbish 900 machines each year, it provided Tennant an opportunity to reach a new set of customers. This novel business model of continuous high quality allows us to take responsibility for the end-of-life of our products and greatly extended their valuable life.

Aligned with Tennant Company's goals, this factory emphasizes sustainability and focuses on the elimination of waste and the reduction of energy consumption. We have received certification in Environmental Management ISO 14001, focusing on environmental systems with the objective of giving a second life to our machines and reducing our environmental impact.

**“ OUR MACHINES
ARE BORN TO
HAVE MORE THAN
ONE LIFE. ”**

The reconditioning process starts with a used machine finding its way back to Tennant, through a trade in program.

- The machine is assessed and rated based on its condition, and will either be cleaned and repaired for resale, or dismantled for recycling.
- The machines deemed appropriate for reconditioning are thoroughly inspected and components with excessive wear are replaced. Commonly replaced components include batteries, motors, vacuums fans, and consumables such as brushes and squeegees.
- After the machine is back to a highly functional state, it goes through an exterior restoration where many machines emerge looking good as new.

Once machines are repaired and have passed our strict quality inspection, they are added to the Tennant Pre-Owned machines inventory on our website, along with a detailed description of the equipment, price and warranty condition. Our inventory of Certified Pre-owned equipment is constantly being updated so be sure to check back frequently or contact your sales representative.

HIGH-PERFORMING AND VALUE-PRICED TENNANT PRE-OWNED MACHINES, GENUINE PARTS AND EXCELLENT SERVICE

Reconditioned Tennant equipment offers excellent performance at a price that fits your needs.

Each RECON machine listed on our website is refurbished, inspected and tested by factory-trained Tennant technicians and classified as Certified Pre-Owned. The wide selection of machines gives Tennant customers a variety of options for your price point and cleaning needs.

Warranty

When you buy a Recon machine, your product warranty is an integral part of that purchase. It's our promise that we stand behind our products and stand beside our customers, beginning with the buying process*.

Service

Tennant's Customer Support Team and highly trained Service Technicians work together every day to provide excellent quality service, ensuring that you get most out of your Tennant machine.

Our technicians drive Tennant branded service vans featuring ServiceLINK® technology, a wireless system that provides our technicians full access to service records, technical manuals and parts availability. The vans carry a range of genuine Tennant parts exclusively used by our certified technicians to ensure that machines are equipped to deliver great cleaning results, improve employee productivity, extend the life of your machine and your return on investment.

**Warranties cover factory defects and do not include wear and tear or use*
