

CREATING A CLEANER, SAFER, HEALTHIER WORLD.

# PROTECT YOUR CLEANING BUDGET AND ASSETS

# SAME CLEANING RESULTS IN EVERY LOCATION, EVERY TIME WITHIN BUDGET

You face many challenges in ensuring that your stores stay clean and welcoming, including budgeting time and money, maintaining standards of consistency and quality, managing cleaning equipment and suppliers. In order to confidently and effectively manage all of these aspects, you will establish a clear and logical routine for cleaning which includes the best and most cost-effective equipment and service.

As a partner we can help you deliver consistency to all your locations and supply equipment specialists who are knowledgeable about your business. Tennant will offer time-saving innovations, environmentally-friendly cleaning products that will help protect your cleaning budget.

Tennant delivers full end to end cleaning solutions through an extensive portfolio of durable, high-quality products, with proven innovative technologies alongside expert services to meet multiple cleaning needs, floor and off-floor.

# TENNANT PROVIDES A COMPLETE CLEANING SOLUTION FOR ALL YOUR RETAIL APPLICATIONS RANGING FROM SMALL STORES TO SHOPPING OR DISTRIBUTION CENTERS.

### KEY CHARACTERISTICS OF THE RIGHT CLEANING PARTNER

Dependable and durable products

Innovative and cost efficient features

Sustainable solutions

Full service coverage & support

Complete customer care

# 7 TIPS TO REDUCE YOUR CLEANING COSTS AND PROTECT YOUR ASSETS

### **GET INVOLVED**

Regardless of how you clean your facility, being involved in the equipment purchasing decision is crucial to your business. Three options for your facility care program:

- Self or In-House Cleaning: Purchase equipment and supplies; hire labor
- Outsourced Cleaning: Buy 'the result' through use of hired cleaning contractors
- Hybrid Cleaning: Purchase equipment and supplies; outsource labour

## **USETHE RIGHT MATERIALS**

Using the lowest price inputs might be costing you money.

 Substituting higher cost or higher quality raw materials may reduce steps and overtime, justifying the higher cost

# INVEST IN INNOVATIVE, EFFICIENT TECHNOLOGY

Clean smarter with asset management and business intelligence metrics, which allow you to:

- Objectively measure a clean environment
- Create consistency across your stores
- Develop a consistent process that you can track across your chain
- Isolate issues and make corrective actions quickly and cost-effectively

## **CONSOLIDATION PRODUCTS**

Consolidating products can:

- Simplify employee training
- Improve overall productivity
- Reduce labour and traditional chemical costs

# EMPLOYING ENVIRONMENTAL BEST PRACTICES

Environmental friendliness does not have to mean a compromise in cleanliness or budget.

- Environmentally-friendly solutions often turn out to be most cost effective, since they use fewer resources to achieve the same results
- Environmentally-friendly solutions can also contribute to your business CSR objectives

# **STAFF TRAINING**

No matter which cleaning program you choose, staff must be properly trained te ensure consistency and quality.

- Thoroughly train your staff and provide job aids such as wall charts and videos
- Build a successful on-boarding programme and continuous training

### **INCREASE SAFETY**

Your customers and employees are valued assets.

- Make sure you are providing them with a clean, healthy and safe environment
- Implementing best-in-class process can reduce the chance of accidents and costly compensation claims

THESE 7 TIPS WILL HELP YOU IMPLEMENT THE MOST EFFECTIVE CLEANING PROCESS USING THE RIGHT EQUIPMENT WITH INNOVATIVE & ENVIRONMENTAL-FRIENDLY TECHNOLOGIES WHILE PROTECTING YOUR BUDGET AND ASSETS AS WELL AS SIMPLIFYING STAFF TRAINING, CLEAN SMARTER AND INCREASE SAFETY.
