

Tennant Company

TXMAS Contract No: TXMAS-3-23V030

Vehicular Multiple Award Schedule (VMAS)

The Tennant Company manufactures and sells sweepers and scrubbers. In the pages that follow, you will see the most exciting and productive rider sweepers and scrubbers in the world. This contract offers a complete line of sweepers and scrubbers ideal for cities, roadways, airports, schools, universities, convention centers, parks, transit authorities, housing authorities, and parking decks.

With our factory direct sales, service, and support representatives located across the State of Texas, Tennant can provide you with the after sale support and customer satisfaction that Texas government agencies expect.

For any questions or options for a machine that may not be listed, please call for our local factory direct Texas Sales Representatives at 1-800-553-8033.

National Institute of Government Purchasing
NIGP CLASS CODES

TXMAS Requests that the proper NIGP Code be added to the purchase order. Below are the appropriate codes:

Class 035 - AIRCRAFT AND AIRPORT EQUIPMENT, PARTS, AND SUPPLIES

03581 Sweepers, Runway (See 76577 for Street Sweepers)

Class 365 - FLOOR MAINTENANCE MACHINES, PARTS, AND ACCESSORIES

36550 Power Sweepers and Brooms, Warehouse Type (Not Road and Street), Parts and Accessories

36560 Scrubbing Machines (With Vacuum Pickup), Parts and Accessories

Class 765 - ROAD AND HIGHWAY EQUIPMENT (EXCEPT ASPHALT, CONCRETE, AND EARTH HANDLING EQUIPMENT IN CLASSES 755 AND 760)

76577 Sweepers, Drag Brooms, etc. and Parts (See Class 365 for Warehouse Power Brooms and 03581 for Runway Sweepers)

EFFECTIVE OCTOBER 1, 2012

ITEM NUMBER 271-104

Tennant Contract No. GS-30F-1020D

FEDERAL SUPPLY SCHEDULE PRICE LIST

Authorized Price List for the period September 28, 2010, through September 27, 2015

VMAS, FSC 23, Part V, G.S.A. Distribution, Class 3825, Code 10SC-3801

Cleaning Equipment and Supplies
FSC Group 23, PART V

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!™ www.GSAAdvantage.gov

For more information on ordering from Federal Supply Schedules, check on the FSS Schedules button at fss.gsa.gov.

RIDER-OPERATED SWEEPERS AND SCRUBBERS

High-speed units are used at Federal office complexes, warehouses, parking ramps, hangars, service facilities, military bases, hospital grounds, post offices, cemeteries, parks, recreation areas and transportation facilities. Anywhere cleanliness is needed and time is important.

Within the contract are: rider-operated power sweepers, power scrubbers, and power sweeper/scrubbers.

Tennant provides the after-sales factory technical backup that government agencies expect. It has a nationwide factory and service network plus an international organization that services over 60 countries. More complete information on all the machines covered in this contract is available through the Tennant office nearest you.

This contract offers a line of power equipment which can speed surface maintenance operations at government facilities throughout the world.

¹ See EPA Emission Control Warranty Statement for details on the emission control system coverage for machines equipped with the certified GM engine.

² GM engines in these models carry a five (5) year or 3,000 hour (whichever occurs first) parts warranty, excluding

starters, alternators, belts, general maintenance items, or failure due to improper maintenance.

³ See Evaporative Emission Control Warranty Statement for details on the evaporative emission control system coverage for machines equipped with the Kubota gasoline engine.

⁴ Hopper and water tank carry a 5-year or 5,000 hour (whichever occurs first) parts warranty.

NEW MACHINE WARRANTY

Tennant Company warrants to the original purchaser, for the above-stated periods (whichever occurs first), that machines will be free from defects in workmanship and material, provided that machines are installed, operated, and maintained in accordance with Tennant Company's written manuals or other instructions.

The warranty period begins on the installation date at the end-user site. This warranty does not apply to damage or failure caused by accident, misuse, negligence, abuse, improper repair, or maintenance of the machines. Please refer to Operator Manual for proper machine operation and maintenance instructions.

Demonstrator machines purchased from Tennant Company carry the same warranty as a new machine.

LABOR AND TRAVEL WARRANTY

Tennant Company will, at its option, provide labor and travel or pay for outside repair for the above-stated periods.

PARTS WARRANTY

Parts replaced or repaired under this warranty are guaranteed for the remainder of the warranty period. Consumable parts, expected to wear from normal use, are not covered under the parts warranty. Items that are covered on a prorated basis include tires (1 year) and batteries (2 years). Some industrial steel tray batteries are warranted by the manufacturer for five (5) years. Brushes that fail due to defect within one (1) year will be covered based on percentage of remaining bristle length. Fiber reinforced composite shrouds and Duramer™ shrouds, hoppers, solution, and recovery tanks are warranted for eight (8) years or 5000 hours (whichever occurs first).

REPAIR PARTS WARRANTY

After the warranty period expires, repair parts supplied by Tennant Company are warranted against defects for the period of ninety (90) days, with the exception of batteries which are covered on a prorated basis for twelve (12) months. The repair parts warranty only covers parts, not labor or travel (see service labor section for terms).

SERVICE LABOR WARRANTY

Labor and travel performed by a Tennant Company service representative are warranted for thirty (30) days from the date the repairs are completed. This policy does not cover work performed by any service company other than Tennant Company, and is restricted to the specific repair operation or component for which a claim is made.

DISCLAIMER

TENNANT COMPANY EXPRESSLY DISCLAIMS ANY AND ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. TENNANT SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, WHETHER DIRECT OR INDIRECT, INCLUDING, BUT NOT LIMITED TO, BUYER'S LOSS OF MATERIAL OR PROFITS, INCREASED EXPENSE OF OPERATION, BODILY INJURY, LOSS OF USE OF PROPERTY OR DOWNTIME.

Tennant Company reserves the right to change its warranty policy without notice.

¹ Three (3) year limited warranty on electric motors and belts not subject to wear

² For machines shipped from Tennant Company on or after 2/1/2008

³ For machines shipped from Tennant Company prior to 2/1/2008

NEW MACHINE WARRANTY

Tennant Company warrants to the original purchaser, for the above-stated periods (whichever occurs first), that machines will be free from defects in workmanship and material, provided that machines are installed, operated, and maintained in accordance with Tennant Company's written manuals or other instructions.

This warranty does not apply to damage or failure caused by accident, freight damage, misuse, negligence, abuse, improper repair, or maintenance of the machines. Please refer to Operator Manual for proper machine operation and maintenance instructions.

The warranty period begins on the installation date at the end-user site. A Machine Installation/Warranty Report form included with Operator's Manual must be completed and returned immediately at the time of purchase. If proof of purchase is unavailable, the warranty begins ninety (90) days after original sale to an Authorized Tennant dealer.

Demonstrator machines purchased from Tennant Company carry the same warranty as a new machine.

LABOR AND TRAVEL WARRANTY

Tennant Company will, at its option, provide labor and travel or pay for outside repair for the above-stated periods.

PARTS WARRANTY

Parts replaced or repaired under this warranty are guaranteed for the remainder of the warranty period. The parts warranty on batteries is pro-rated for one (1) year from the Tennant Company shipping date. Consumable parts, expected to wear from normal use, are not covered under the parts warranty. These consumable parts include, but are not limited to: belts, drive chains, brushes, pad drivers, filters, squeegees, tires [pro-rated for one (1) year on rider machines], skirts, hand grips, battery cables, power cords, cord restraints, external hoses, vacuum bags, fuses and carbon brushes. Battery chargers and accessories are warranted for one (1) year.

REPAIR PARTS WARRANTY

After the warranty period expires, repair parts supplied by Tennant Company are warranted against defects for the period of ninety (90) days. The repair parts warranty only covers parts, not labor or travel.

SERVICE LABOR WARRANTY

Labor and travel performed by a Tennant Company service representative are warranted for thirty (30) days from the date the repairs are completed. This policy does not cover work performed by any service company other than Tennant Company, and is restricted to the specific repair operation or component for which a claim is made.

DISCLAIMER

TENNANT COMPANY EXPRESSLY DISCLAIMS ANY AND ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. TENNANT SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, WHETHER DIRECT OR INDIRECT, INCLUDING, BUT NOT LIMITED TO, BUYER'S LOSS OF MATERIAL OR PROFITS, INCREASED EXPENSE OF OPERATION, BODILY INJURY, LOSS OF USE OF PROPERTY OR DOWNTIME.

Tennant Company reserves the right to change its warranty policy without notice.

Creating a cleaner, safer world

Since 1870, Tennant Company has been creating a cleaner, safer world. We are committed to improving the quality of our indoor environments, while reducing the impact of cleaning on the outdoors.

Product Safety Certifications and Approvals

Carpet and Rug Institute (CRI) – Green Label Certified

To qualify for Green Label, vacuums and sweepers must go through stringent testing that measures soil removal, dust containment, and carpet appearance.

Carpet and Rug Institute (CRI) – Seal of Approval

To qualify for seal of approval, extractors must undergo stringent testing that measures soil removal, water removal, and texture retention.

National Floor Safety Institute – NFSI Certified

NFSI certification ensures a product has passed a 2-phase testing process, proving the floor product helps to reduce potential for slip-and-fall accidents.

Green Seal – GS-37 Certified Detergents

Green Seal evaluates and certifies cleaning products based on criteria such as the toxicity of the product, skin and eye irritation, skin sensitization, combustibility, toxicity to aquatic life, and packaging.

Registered by NSF International

NSF International is an independent, not-for-profit organization which registers compounds, such as cleaning agents, used in and around food establishments. NSF Registration ensures that formulation and labels on these products meet appropriate food safety regulations.

U.S. Green Building Council (USGBC) – LEED

USGBC created LEED (Leadership in Energy and Environmental Design®) to recognize U.S. standards for high-performance and sustainable building environments. The USGBC recognizes products that can contribute to LEED and LEED-EB (existing building) points. 

Underwriters Laboratories (UL)

Underwriters Laboratories is a United States nationally recognized testing laboratory.

ETL Testing Laboratories

ETL Testing Laboratories is a United States nationally recognized testing laboratory.

Conserve Resources

Reduce Noise

Tennant Company Cleaning Technologies

Your facility requires safe and effective cleaning technologies to get the results you and your staff demand. Tennant Company offers a full line of safe, supportive and innovative cleaning solutions.

ec-H2O™ – Release the Power of Water

ec-H2O™ electrically converts water to perform like a powerful detergent. This chemical-free technology removes the environmental and human health issues associated with daily cleaners; all while eliminating costly chemical purchases. The result is a superior clean, healthier environment, increased employee safety and reduced operations costs.

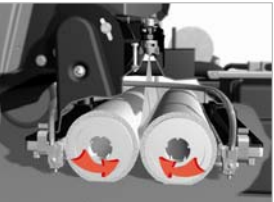

FaST – The Safe Scrubbing Alternative®

FaST is the best way to meet the highest cleaning standards using 70% less solution. That's because FaST foam cleans so well it not only captures existing soil, it also removes old, slippery detergent residues. The result is a cleaner, higher-traction floor.

FaST does not require measuring or mixing and cleans up to 1,000,000 square feet per FaST-PAK®. FaST detergent is available in 3 formulas: FaST 365 (Neutral pH Daily Cleaner), FaST 665 (Neutral pH Heavy Duty Cleaner), FaST 965 (Heavy Duty Degreaser Cleaner).

READYSPACE®

Carpets cleaned with ReadySpace are dry and ready for use in less than 30 minutes. Turn your just-cleaned carpet spaces around quicker, keep rooms open for traffic longer, and clean high-traffic areas more often with ReadySpace technology.

Using up to 80% less water to clean and leaving up to 90% less water in the carpet, ReadySpace helps reduce mold and bacteria growth and leaves cleaner, healthier spaces.

SCRUBBERS

Maintain a clean, safe and productive environment with our industry-leading scrubbers. Look for machines featuring FaST® or ec-H2O™ technologies. Ec-H2O™ electrically converts plain tap water into a powerful cleaning solution for chemical performance with earth-friendly results. FaST® is the safe scrubbing alternative, removing old, slippery detergent residue with floor traction increased by 21 percent.

Applications

- Barracks and Dormitories
- Auditoriums
- Command Centers/Post Exchanges
- Commissaries
- Hallways/Hospitals/Infirmaries
- Post Offices
- Recreation and Fitness Centers
- Warehouses and Storerooms
- Aircraft Hangars
- Schools

Model 550 SRS® Power Scrubbers

LP powered unit has an 83 hp GM EPA Tier 2 Engine and the Diesel powered unit has a 63 hp Caterpillar EPA Tier 4i Engine. All units have Underwriters Laboratory (UL®) LP or D Certification. Unit scrubs a 50" cleaning path with cylindrical brushes. Includes stainless steel 140 gallon Solution and 120 gallon Recovery tanks, solution tank level gauges, vacuumized debris trough, power steering and many other standard features. Units are equipped with SRS® Solution Recycling System, which recycles the solution to be reused to extend productive scrubbing time.

SCRUBBER-SWEEPERS

Maintain a clean, safe and productive environment with our industry-leading scrubber-sweepers. Look for machines featuring ec-H2O™ or FaST® technologies. Ec-H2O™ electrically converts plain tap water into a powerful cleaning solution for chemical performance with earth-friendly results. FaST® is the safe scrubbing alternative, removing old, slippery detergent residue increasing floor traction by 21 percent.

Applications

- Barracks and Dormitories
- Auditoriums
- Colleges and Universities
- Command Centers/Post Exchanges
- Commissaries
- Convenience Stores
- Hangars
- Officer/NCO/Enlisted Men's Clubs
- Hospitals/Healthcare Facilities
- Maintenance Contractors
- Fleet Maintenance Facilities (Motor Pools)
- Manufacturing Facilities
- Office Buildings
- Parking Garages
- Post Offices
- Grocery
- Recreation and Fitness Centers
- Restaurants
- Retail Outlets
- Schools
- Shopping Malls
- Warehouses and Storerooms

LITTER VACS AND SWEEPERS, OUTDOOR

The All Terrain Litter Vacuum (ATLV®) provides superior litter pick-up in parks, downtown business areas, recreational areas and anywhere else that litter pick-up is required. The Model Sentinel sweeper is ideal for narrower streets that standard street sweepers cannot enter as well as large parking lots and other large outdoor areas that need sweeping on a regular basis.

Applications

- Parking Lots
- Streets and Alleys
- Parks
- Downtown Business Areas
- Recreational Fields

DUAL TECHNOLOGY CARPET MAINTAINERS

Restorative carpet extraction or Tennant's patented ReadySpace® technology for rapid cleaning of carpet that leaves it ready to use in minutes. ReadySpace® technology uses 80% less water and leaves up to 90% less water behind than traditional carpet extraction helping to reduce mold growth and increasing environmental health and safety. Switch to restorative extraction when carpet has become heavily soiled to remove even the most deeply-embedded dirt. Both cleaning technologies on the same unit for superior carpet cleaning results.

Applications

- Administrative Offices
- Aircrafts
- Barracks and Dormitories
- Classrooms and Auditoriums
- Command Centers/Post Exchanges
- Commissaries
- Elevators
- Hallways/Stairways
- Hospitals/Infirmarys
- Mess Halls/Food Processing Areas
- Officer/NCO/Enlisted Men's Clubs
- Post Offices
- Recreation and Fitness Centers
- Spot Cleaning
- Warehouses and Storerooms

- Green Seal GS-37 Certified
- May Contribute to LEED® or LEED-EBOM points
- CRI Seal of Approval
- CRI Green Label Certified
- NFSI Certified
- NSF Registered
- Conserve Water
- Decrease Detergents
- Increase Safety
- Improve Air Quality
- Reduce Noise

SWEEPING BRUSHES

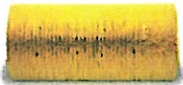

Tennant sweeping brushes are built to last. Manufactured with premium, heavy-duty raw materials and a unique spline drive system, these brushes last longer and ensure superior performance by efficiently transferring power from hub to brush.

Full-Fill – Designed with a dense pattern for trapping sand, dust and other fine debris

Sand Wedge – A high-density brush with a zigzagged pattern that creates “wedges” of space to effectively pick-up fine debris.

Full-Fill Tube Broom – Heavy-gauge polypropylene fill material provides superior sweeping performance on uneven or irregular surfaces.

Window Brush – A patented brush with open “windows” to trap light litter.

6/8 Double Row – Bristles pick up fine debris while the spacing between the rows effectively traps bulkier litter.

Patrol Brush – Wider spaced rows effectively pick-up bulky litter during high-speed sweeping.

Side Brushes – Round, flared design reaches into corners or along edges, pushing debris in front of the sweeper for pick up by the main broom.

SCRUBBING BRUSHES

Long-life disk and cylindrical brushes feature plastic backings to protect against warping and splitting. Drain holes help flush water and grit from high-wear spots to protect the machine’s drive plug and ensure optimum spin rates.

Cylindrical Scrub Brush

Disc Scrub Brush

Cylindrical and Disk – Full-fill bristle patterns are trimmed to an optimal length for excellent floor surface coverage, and appropriate bristle stiffness delivers effective scrubbing performance.

BRUSH SELECTION GUIDE – FILL MATERIAL AGGRESSIVENESS
