Concrete Prep

THE DIAMABRUSH™ CONCRETE PREP TOOL

- **SIMPLICITY**—use on existing, standard equipment such as automatic scrubbers and flooring machines.
- **SUSTAINABLE**—the Diamabrush™ system is a mechanical preparation solution that is chemical-free.
- **COST EFFECTIVE**—achieve a professional profile for coating systems up to 30 mils thick at a fraction of the cost of traditional coating removal methods.

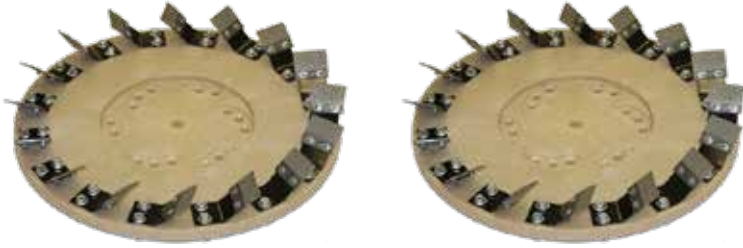

Achieve Professional Results— Every Time

The Diamabrush™ Concrete Prep tools have simplified surface preparation for the end-user. When it comes to coating your concrete floors, surface preparation has always been the most expensive and most difficult step in achieving a successful, long-lasting coated floor. The quality of your surface preparation will determine the quality of your end result. Traditional methods of surface preparation include shot blasting and large diamond grinding. These methods are expensive, often require significant training and know-how, and may require 480 volt three-phase power. Now, both professionals and do-it-yourselfers can prepare and profile old, worn, dirty floors using standard 110 volt or battery powered cleaning equipment, such as automatic scrubbers or single-disc flooring machines.

CONCRETE PREP TOOL

To be used on battery powered automatic scrubbers

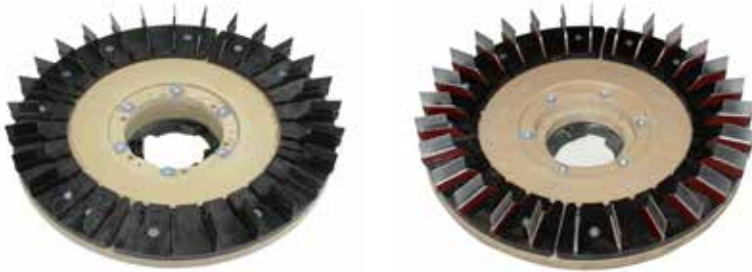

REPLACEMENT BLADES

25, 25/35 and 100 Grit Blades Available

CONCRETE PREP PLUS TOOL

To be used on floor buffers and large propane automatic scrubbers

REPLACEMENT BLADES

25 and 100 Grit Blades Available

SIMPLE TO USE

The Diamabrush™ Concrete Prep tools are simple to use. To get started, end-users will need to provide the following to determine what brushes are required for their project:

1. MAKE AND MODEL OF MACHINE

Is it a walk-behind or small ride-on machine or a large ride-on machine

2. SIZE (DIAMETER IN INCHES) OF BRUSHES

3. STARTING CONDITION OF FLOOR

*Old, worn or pitted
Smooth and dull*

3. OVERALL SQUARE FOOTAGE TO BE RESTORED

Once the required brushes are determined, you are ready to begin preparing your floor! Please contact a Tennant representative at our customer service line at: 1-800-553-8033 with any questions or concerns.

TOOLS

Diameter	Tool	Tennant Part #	Material Description
14"	Concrete Prep Tool (spring)	1261868	100 Grit, CCW
		1261867	100 Grit, CW
	Concrete Prep Plus Tool (over-molded blades)	1261903	100 Grit, CW
		1261904	100 Grit, CCW
16"	Concrete Prep Tool (spring)	1261876	100 Grit, CCW
		1261875	100 Grit, CW
	Concrete Prep Plus Tool (over-molded blades)	1261891	100 Grit, CW
		1261892	100 Grit, CCW
18"	Concrete Prep Tool (spring)	1261884	100 Grit, CCW
		1261883	100 Grit, CW
	Concrete Prep Plus Tool (over-molded blades)	1261893	100 Grit, CW
		1261894	100 Grit, CCW
20"	Concrete Prep Plus Tool (over-molded blades)	1261895	100 Grit, CW
		1261896	100 Grit, CCW

REPLACEMENT BLADES

Diameter	Tennant Part #	Material Description
14"	1231488	Replacement 25 Grit, Concrete Prep Overmolded Tool CW Set of 24
	1231489	Replacement 25 Grit, Concrete Prep Overmolded Tool CCW Set of 24
	1231192	Replacement 100 Grit, Concrete Prep Overmolded Tool CW Set of 24
	1231193	Replacement 100 Grit, Concrete Prep Overmolded Tool CCW Set of 24
16"	1231194	Replacement 25 Grit, Concrete Prep Overmolded Tool CW Set of 28
	1231195	Replacement 25 Grit, Concrete Prep Overmolded Tool CCW Set of 28
	1231196	Replacement 100 Grit, Concrete Prep Overmolded Tool CW Set of 28
	1231197	Replacement 100 Grit, Concrete Prep Overmolded Tool CCW Set of 28
18"	1231198	Replacement 25 Grit, Concrete Prep Overmolded Tool CW Set of 32
	1231200	Replacement 25 Grit, Concrete Prep Overmolded Tool CCW Set of 32
