ON-SITE SATELLITE SYSTEM

ONE GENERATOR, MULTIPLE DISPENSING OPTIONS

The optional Orbio® os3 Satellite System delivers the flexibility to dispense MultiSurface Cleaner and MultiMicro™ 200 disinfecting/sanitizing solution in remote locations — with concentrated solutions made at the os3 generator.

HOW IT WORKS

SATELLITE STATION

SPILL-PROOF CONNECTIONS

Locking, o-ring sealed connections with a check valve ensure concentrates do not spill during connection to the Satellite System or transport

SIMPLE DISPENSER

Operators simply select one of the two outputs and choose low flow for filling spray bottles or higher flow for filling buckets/equipment

REUSABLE CONTAINERS

Transport containers are rugged so they can be used over and over, reducing packaging waste and costs. Spill proof, stackable and able to withstand a 4ft/1.2 M drop when filled

FLEXIBLE MOUNTING

Containers may be wall mounted using wall cleat or stored on the floor

CUSTOMIZABLE SYSTEM

Multiple Satellite Systems can be supported by one os3 generator

Orbio® Satellite System Sizing

MultiSurface Cleaner

MultiSurface Concentrate transport container size	Dilution ratio	MultiSurface Cleaner RTU output
2.5 ga. / 9.5 L	10:1	25 ga. / 95 L
1.25 ga. / 4.7 L		12.5 ga. / 47 L

MultiMicro™ 200*† Solution

MultiMicro 200*† concentrate transport container size	Dilution ratio	MultiMicro 200*† RTU output
2.5 ga. / 9.5 L	7.5:1	19 ga. / 71 L
1.25 ga. / 4.7 L		9.4 ga. / 35 L

Optional Orbio® os3 Satellite System Water Softener

If incoming water supply at the satellite installation exceeds the maximum hardness listed below, the optional Satellite System water softener should be installed between the water supply and the dispenser. Requires only a water supply and a drain.

Configurable Satellite System Dispensing Stations

Satellite System dispensers can be set up to dispense only MultiSurface Cleaner or MultiMicro 200*† solution. Water is dispensed in place of the other solution.

*Canadian Customers: MultiMicro™ 200 is approved for use in Canada as a food contact surface sanitizer and deodorizer. The solution is going through the Canadian regulatory process for approval as a disinfectant.

Dispensed at satellite dispenser

MultiMicro 200*† and/or MultiSurface Cleaner

Maximum incoming water supply hardness

400 ppm/24 GPG

*MultiMicro 200 refers to MultiMicro Concentrate that has been diluted by the Orbio® os3 dispenser to the ready-to-use form containing 200 ppm free available chlorine.
