

T17 Heavy-Duty Battery Ride-On Scrubber-Dryer

An innovative, high-performance battery scrubber-dryer focused on delivering customized solutions to meet customer needs. The T17 cleans effectively in just one pass, enhances indoor air quality, and improves operator and supervisor experience, all in one machine!

Available Technologies

ec-H2O™ technology

Pro-Panel™ LCD Touch Screen or Touch-n-Go™ control module

IRIS® Fleet Management

ES® Extended Scrubbing

Engineered for Productivity

1. Touch-n-Go™ control module with 1-Step™ start button allows operators quick access to settings without removing hands from the steering wheel. Also available with optional Pro-Panel™ technology.

2. Car-like propel and brake pedals allow for easy operation.

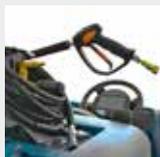

3. Recovery tank access step allows easy access to inspect and clean the recovery tank.

4. Revolutionary patent-pending water trap helps reduce spills and dripping by providing unrestricted airflow and captures moisture left in the recovery hose on shutdown.

5. Swinging squeegee provides excellent water recovery to help reduce the risk of slips and falls.

6. Large battery capacity options extend runtime for increased productivity.

Optional Accessories

Pressure washer delivers a powerful spray to clean tough soils.

FOPS certified overhead guard protects operators from falling objects.

Live wand quickly picks up miscellaneous lightweight debris like shrink wrap.

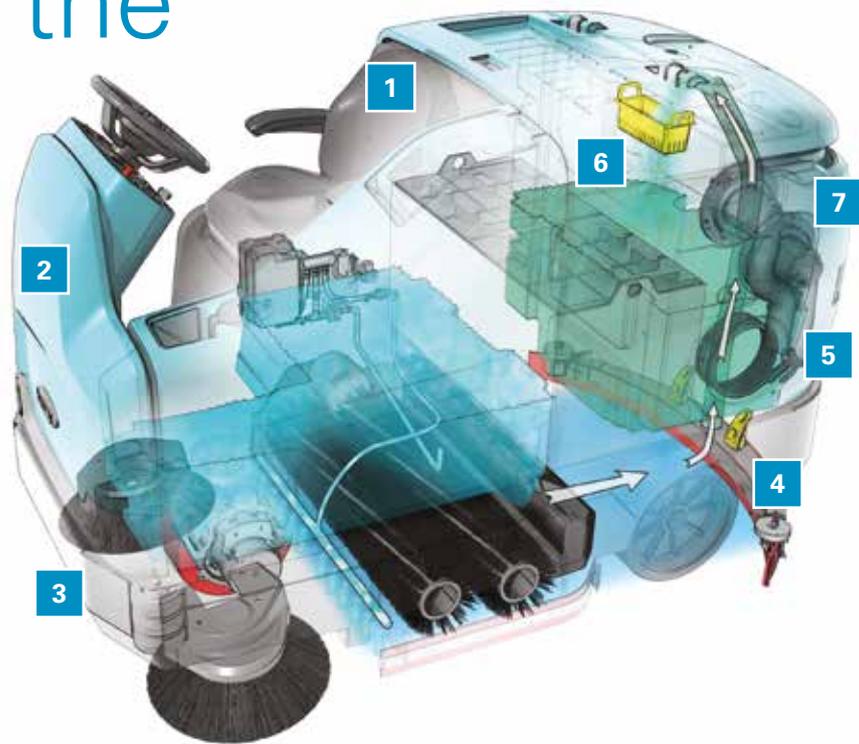

Rear squeegee protection kit helps prevent squeegee damage.

Wet vacuum wand for convenient and quick off-aisle spill recovery.

And more...

Inside the T17

- 1. Forward operating position** improves operator safety and visibility.
- 2. Full front shroud** ensures operator leg and foot protection.
- 3. Wraparound steel bumper** helps protect your investment.
- 4. Yellow touch points** save time and ensure proper maintenance.

- 5. Dual vacuum fans** with corrosion-resistant impeller designed for long life.
- 6. Debris basket** keeps material out of the recovery tank and prevents clogging.
- 7. Solution tank surroundings** are engineered to provide maximum visibility, expanding sightlines to the left-hand sweeping side brush.
