

# **S780**

# Compact battery ride-on sweeper

#### **Highly-Productive Compact Sweeper**

The S780 is a productive, compact, battery-powered sweeper that is easy to operate and maintain. Effectively clean a variety of light- to medium-duty indoor and outdoor environments. Clean quietly and maintain air quality with battery operation.

## Simple operation and maintenance

Ensure successful operation with intuitive operator controls, automatic filter cleaning system and tool-free main brush replacement.

#### Clean effectively, longer

Large hopper capacity and wide sweep path enable operators to clean longer without interruptions.

#### Versatile performance

Dual side brushes effectively clean edges while a powerful vacuum with efficient dust filtration provides excellent sweeping performance in a variety of applications.

#### Inside the \$780

- Intuitive operator controls make it easy to operate and train.
- Large 67 L capacity hopper maxmises cleaning productivity allowing for longer cleaning shifts.
- 3. 1200 mm sweeping
  path utilise dual side
  brushes to provide
  effective large pass
  cleaning to reduce
  time required to clean.
- Low-dump hopper with easy-to-empty bins simplify operator debris removal.

- High-forward seat position offers clear sightlines for excellent operator visibility around the machine.
- 6. Integrated dust flap ensures that larger debris collected is effectively contained.
- 7. Spring-loaded side brushes to protect from side impact, reducing cost of ownership.
- 8. Powerful vacuum
  fan provides
  effective sweeping
  performance
  in dusty environments.

### **\$780** specifications

FEATURE	SPECIFICATION
Sweeping system type	overthrow
Sweeping path (main sweeping system)	680 mm
Sweeping path (with side brush)	1200 mm
Productivity per hour: Maximum (full speed, no overlap)	7440 m²
Productivity per hour: Average (4.8 km/h, 75 mm overlap)	5430 m <sup>2</sup>
Debris hopper capacity	67 L
Debris hopper dump height	low-manual
Maximum speed	6.2 km/h
Maximum ramp climb	6.8 deg / 12%
Power source	battery

FEATURE	SPECIFICATION
Runtime (up to, mins)	180
System voltage	24 volt
Filter type	panel-fabric
Filter surface area	$3.3 \text{ m}^2$
Filter efficiency	5 μm
Thermo-Sentry™	standard
Seat safety switch	standard
Amber Strobe Light	standard
Minimum aisle turn	2750 mm
Length x width x height	1615 x 905 x 1210 mm
Weight (without batteries)	258 kg

Specifications subject to change without notice and will vary throughout the operation of the machine; averages are shown.
