

IT PAYS TO PARTNER WITH A TRUSTED COMPANY

Using quality equipment to clean your school's floors pays long-term dividends by improving your ROI and reducing your total cost to clean. Implementing a robust cleaning program will help maintain student health, safety and the quality of your learning environments while also enhancing your facility image.

"Sustainability is highly important to The University of Chicago. We have target goals and Tennant Company has helped to reach those goals."

—Tony Gac,
Director of Facilities
— University of Chicago

CLEAN MORE AREAS — IN LESS TIME

- Each machine is created to maximize operator efficiency and productivity.
- Equip machines with detergent-free ec-H₂O NanoClean® technology and run up to three times longer on a single tank of water — less dumping and filling.
- Reliable, durable equipment, designed with the customer in mind that allows for easy operations and training.

ANY CLEANING SOLUTION — FOR ANY NEED

- Full range of cleaning equipment and technologies for hard and soft floors.
- A complete portfolio — scrubbers, sweepers, sweeper-scrubbers, carpet extractors, burnishers, vacuums and specialty cleaning equipment.

FLEXIBLE BUYING OPTIONS — TO FIT YOUR BUDGET

- Take advantage of our flexible financing programs.
- Increase purchase power and budget management with convenient lease options.

TRUSTED SUPPORT — WHEN YOU NEED IT MOST

- Full support of Tennant representatives and distributor partners.
- Tennant True® factory-direct and distributor partner service representatives respond quickly (typically within one to two business days).
- Technicians come prepared with equipment and tools to fix machines right away — reducing downtime and lowering service costs.

PRODUCTS YOU CAN COUNT ON — EVERY TIME

- Machines that run reliably for the life of the equipment contain your cost to clean.
- Tennant's commitment to innovation and predictable budgeting instills confidence that your investment pays off now — and well into the future.
