

## Cleaning Solutions Tailored To Your Needs

Your top priority is taking care of your patients. That also means taking care of your staff, visitors and facility. Tennant can help you:

- ✓ Maintain high standards for cleaning
- ✓ Control costs
- ✓ Reduce risks to health and safety
- ✓ Improve sustainability

### Tennant Innovations

From hard floor cleaning to outdoor sweeping, Tennant provides a total solution for keeping health care facilities bright and attractive. We offer a full range of cleaning equipment and technologies to meet multiple cleaning needs.

### T5

#### WALK BEHIND SCRUBBER

Clean up to three times longer on one tank of water with the T5 Walk Behind Scrubber with ec-H2O NanoClean™ technology. The T5 cleans quietly at an OSHA-recognized test-standard 67 dBA. Choose from 24", 28", 32" disk or 26", 32" cylindrical.

### B5/B7

#### WALK BEHIND BATTERY BURNISHERS

Achieve high performance propane-like gloss results with the B5 and B7 Walk Behind Battery Burnishers. Machines come standard with active HEPA dust control air filtration and low dBA levels. Available path widths in 20", 24", or 27".

### S20

#### COMPACT MID-SIZED RIDER SWEEPER

Get mid-size cleaning power with the S20 Compact Mid-sized Rider Sweeper. This compact machine is built for long run times and easy maintenance.

### T300

#### WALK BEHIND SCRUBBER

Clean hard floor surfaces quickly and quietly with the T300 Walk-Behind Scrubber. Available with ec-H2O NanoClean™ technology and Quiet-Mode™ for cleaning with reduced 58 dBA noise level. Choose from 17", 20", 24" disk or 20" cylindrical and 20" Orbital.

## F14

### ORBITAL FLOOR MACHINE

For compact spaces, use the F14 for powerful floor finish removal. Isolators reduce vibrations to the operator's hands, making operator ergonomics a priority.

## S9

### LARGE BATTERY SWEEPER

TwinMax™ Sweeping Technology captures large and small debris at the same time to clean floors in one pass. Quiet 62 dBA sound level makes cleaning safe, anytime, anywhere.

## V-BP-6/ V-BP-10

### BACKPACK VACUUMS

Comfortably clean anywhere with the V-BP-6 and V-BP-10 ergonomic, lightweight designs and standard HEPA 4-stage filtration.

## V-DMU-14

### DUAL MOTOR VACUUM

Provides standard HEPA 3-stage filtration and noise levels lower than 70 dBA.

## B10

### RIDER BURNISHER

Maintain indoor air quality and work quietly in noise sensitive environments with the B10 Rider Burnisher, which features a low 69 dBA sound level and HEPA filtered active dust control.

ec-H2O™ technology, ec-H2O NanoClean™ technology and Orbio® MultiSurface Cleaner are NFSI Certified, registered by NSF International and may contribute to LEED.

We also offer 11 carpet extractors and vacuums carrying the CRI Seal of Approval.
